The Count and Countess de Paris celebrated their silver wedding yesterday. Prince and Princess of Wales, all the Orleanist Princess and a high rank crowd were present. Many presents. One from Queen Victoria.

Berlin, 31st.—Samoan Treaty stipulates that the Government must be purely native. The autonomy of the islands is guaranteed. Islands to be governed by a native king and viceroy elected by the Samoanese. Principal tribes to form the Upper Chamber. People to elect Lower House, member for every 2,000 souls. Treaty guarantees, "statu quo antes" and restoration of Malitoa as King. The proposal that the indemnity to Germany should be paid by Samoa gave rise to most discussion. The Germans finally waived the claim, and the treaty provides that merely a nominal sum shall be paid.

TRADE FIGURES.

The commercial public miss the familiar monthly statements from the Statistical Office on the trade of the country. For many years Mr. Latzina supplied these monthly statements, which were of great interest, though they only embraced the figures of the Buenos Ayres port; but every quarter a general statement of the whole foreign trade of the country used to be drawn up, and served as the complement of the monthly figures. Those monthly statements have been abandoned, and the work of the Statistical Office is limited now to quarterly publications, embracing the total foreign trade; but it is to be hoped that before long the Office will be able to do monthly what it does now every quarter.

The statement before us embraces the foreign trade of the Argentine Republic during the first quarter, ending March 30th, of this year, compared with same period of 1888. Let the figures speak for themselves:—

	1st Quarter. 1888	1889
	$	$
Imports, subject to duty	27,142,501	30,300,620
Do., free of duty	4,892,866	7,183,365
Do. of specie	288,970	103,222
	32,324,337	37,587,207
Exports	30,140,212	33,938,942
Exports of specie	1,239,906	16,037,885
	31,380,118	49,976,827

There is nothing very extraordinary in the above figures beyond the fact that 30 o/o of our exports is specie. We are rapidly becoming a gold exporting country, more so than a wool-hide-meat exporting country. If the Republic produced gold, such a situation might be defined as plausible, but since we are merely exporting the sovereigns we imported last year, this game across purposes is most unsatisfactory and proves the ricketty condition of our exchange market, owing to the heavy indebtedness of the country. To remedy such a situation, or redress the disturbed balance, we must appeal to more economy in the government and the people, or pray for some providential help that may greatly enhance the value of the products we barter abroad. As there is not the remotest probability of either economy being resorted to or of any great rise in the price-level, we may cross our arms and await eventualities, whilst the exchange market jerks up and down, "pari passu" with the process and relief of fresh loans from Europe.

Some consolation, however, may be derived from this export of 16 millions of specie during the first quarter. That consolation is the grim satisfaction that so much at least has been paid off. It would have been more satisfactory, no doubt, if that amount had been shipped in wool, hides, or frigorified mutton: just as it would have been more plausible, if last year we had imported more ploughs, threshing machines and blood-stock, but less gold coin, forced into the country at a very moment when it was more profitable to draw in bills. We are still experimenting, and we must wait to see the course the commercial and financial ship will steer into. It is expected that this year three hundred thousand fresh emigrants will pull at the rudder, and that may set us aright: if three hundred million Cedulas and greenbacks and, say, thirty million gold dollars, spent by Argentines or River Plate residents in Paris, do not pull the other way.

LATEST FROM PARIS.

(From our Special Correspondent.)

April 29.

In the London market there are at present offering for sale between 13 and 15 thousand bales of wool per day, and all classes of wool are being rapidly bought up at very firm prices. The Continental buyers are operating on a gigantic scale, the proportion of purchases being 54 per cent. of the total offered, the remaining 46 per cent being taken up by English buyers. In France there seems to be much demand for fine, clean wools and of long fibre, high prices being freely paid for this class. There is great activity at the auctions. Up to April 27 over 228,000 bales had been offered. Of these 222,328 were sold, and 5,000 were withdrawn; 74,559 will be offered for sale up to May 4 from Australia, and 8,034 from Cape of Good Hope, which make a total of over 82,600 bales from the British Colonies.

Purchases on time are increasing in France, particularly in the neighborhood of Roubaix and Tourcoing, the great wool-manufacturing districts. But the consumption does not appear to be increasing much for the present.

Business in the North of France seems to fare well, and demands are brisk. Prices, however, have not improved. An immense quantity of fancy articles is being manufactured, and these, no doubt, will find a ready market now. In the raw wool markets—such as Havre, London, Antwerp, Bordeaux and Marseilles—much activity prevails and prices are rising. As a rule, raw wool commands a firmer and more rising price than the wrought article. The rise in combed wool last week in Roubaix and Tourcoing was 30 centimes; but this was a speculative rise. River Plate combed wool is quoted for May at 5.72½ and 5.70 for succeeding months. First-class quality at 6.15-10 (francs per kilo.). These quotations are for Antwerp. In France the same wool for May is quoted at 5.67½ frcs., and superior quality at 5.90. Superior German combed wool from B. Ayres at 6 frs.

As you see, prices are rising and I presume the cable has already informed you of the accentuated firmness of the market here, and I am inclined to think this firmness will continue, if no unforeseen political events occur. Within the last few years no industry has advanced so rapidly as the wool. Look at these figures and see if I am not right: In 1879, the United Kingdom, Europe and North America produced 282,355 tons of wool, washed. Add to that, 148,131 tons imported from the River Plate and the British Colonies, and we have a total production for 1879 of 371,486 tons of wool, consumed in the United Kingdom, Europe and North America. Now examine the production of 1888: The United Kingdom and Europe produced 255,039 tons, to which we must add the imports from other countries, 230,124 tons, a total of 485,163 tons consumed. In other words, the consumption of wool has increased 30 per cent in the last ten years. The production of Europe and the United Kingdom has remained stationary; that of North America is stationary. Yet the imports increased wonderfully.

In 1879 the principal consuming countries took 65,232 tons of wool from Australia, 14,949 tons from the Cape of Good Hope, and 35,787 tons from the River Plate. Now let us look at the figures for 1888: 104,643 tons from Australia, 22,197 tons from the Cape of Good Hope and 55,266 tons from the River Plate. This implies an increase of 60 per cent for Australia, 50 per cent for Cape of Good Hope and 54 per cent. for the River Plate.

"Recuerdos" to all.

Carlos Lix-Klett.

MR. PARNELL'S ACTION.

Antibes, April 28th.

Papers bring us intelligence that "the uncrowned King" of Ireland has begun an action against the *Times*, in which he demands £100,000 damages for the Pigott-Houston-MacDonald publications. He knows perfectly well that he has no chance of a verdict, unless for a merely nominal sum of £20 or £50, but he is right in bringing the action, for the purpose of shewing the extreme animosity that Englishmen feel against any man who seeks to redress or alleviate the wrongs of Ireland. If the forgeries in question had been directed against any English or Scotch statesman the jury would not hesitate 15 minutes to bring in a verdict for the full amount claimed. Nay, had they even been levelled against Col. Saunderson or other conspicuous Orangemen the result would be similar. But, sad to say, the British public regrets that the Pigott business was discovered, and still applauds the *Times* for its part in the forged letters. I have spoken here with fifty Englishmen, and all except two are fanatical in their hatred of the Irish party; they would erect a statue to Sir Richard Webster, and pass a vote of thanks to Walter, Pigott, Houston, Soames and Maguire. It is a strange fact that two of these worthies have passed off to another world, and that Walter, Soames, MacDonald and Houston are practically beyond the reach of the law. What then remains, but for the historian to record as black a page in modern English history as the Titus Oates conspiracy.

If Mr. Parnell could bring his action in Paris, Berlin, St. Petersburg or Vienna, before an impartial jury, he would most certainly get a verdict; but we have already seen in the defeat of his Scotch action that he has no chance against the *Times*, nor in any British Court of Justice. This is a proof of national decadence. When the sense of right and wrong is so blurred and blotted in the public mind, the bulwark of an individual's rights, the cheap defence of nations, is gone. Was it not Periander who said "That is the best-governed State where an injury to the humblest citizen is regarded as if done to the whole community". The wrong done to Mr. Parnell was indeed an injury to the people of Ireland, but such injuries have no hope of redress before an English Jury.

These anticipations, you may say, are not likely to be verified. Englishmen love fair play, and will hasten by the only way in their power to indemnify him justly and liberally for the persecution and wrong that he has suffered. Time will shew whether I am right. If he gets a verdict at all, the sum which he demands is not too much. The *Times* cannot plead justification after having withdrawn the letters and admitted them to be forgeries. If there was any sense of justice left, Mr. Walter and his allies would lodge £100,000 in court, and agree either to leave the amount of damages to be fixed by arbitration, or to request the Judges of the Supreme Court to fix it.

But the *Times* people are too confident of the bias that Englishmen feel against the Irish party and its leader to take such a step. The case will soon come on, the Jury will either disagree or give a verdict for Mr. Walter and "his old friend" W. H. Smith, the latter of whom was entertained the other day at the Guildhall with the same effusion as if the Pigott incident had never happened, or rather as if it were by no means a disgraceful affair. The banquet given to the Attorney-General was in the same spirit. How is it possible then for a moment to suppose that the gentlemen who applauded Smith, Walter and Webster are going into a jury-box to give Mr. Parnell damages?

Railway Items.

THE SERIOUS ACCIDENT ON THE GREAT SOUTHERN RAILWAY.

WAGONS STILL BURNING.

ESTIMATED DAMAGES £3,000.

A collision of a very serious nature occurred between Azul and Shaw, at an early hour on Thursday morning. The goods train due to arrive at Azul at 1.30 a.m., which was three hours late, should have been detained at Shaw, and there crossed with the goods train which arrives at 5 a.m. However, the peon on duty at the latter station omitted to show a red light, and the first-named train rolled through Shaw and proceeding outward on the line already occupied by the other train, which had left Azul right time, collided with it at about half-way between the two stations.

The engines and a number of wagons were thrown off the line, and the pieces of the broken ones were scattered indiscriminately around.

Some wagons caught fire, but the conflagration was of short duration.

Those who were passengers by the Ferro Carril del Sud on Thursday, and had to pass the goods train collision were lucky in seeing one of the sights of the season. We arrived there at about five o'clock, and a most wonderful sight met our gaze. The two engines were facing, and one might write, embedded in each other's grasp. One escaped damage altogether, but the other experienced a terrible ordeal, the buffers being bent and twisted about, while the tank seemed to be in a terribly battered condition. Behind each engine were piles of wagons forced upon the top of one another, while the contents were strewn around in a rather smashed up condition. One heap of wagons, the contents of which seemed to be potatoes, were all aflame, the heat being at times intense, not noticing the beautiful charm one experienced by being enclouded by smoke occasionally.

The brake van of the outward train was thrown off the line and laid on its side content, but that of the other one might have been picked up and stuck together from pieces of wood about six inches long. It evidently had disappeared, and match-wood vendors only would glance favourably at it.

An engine-driver, whose name is Fitz-Gerald, his fireman and a guard were the only injured. The latter was, through the force of the collision, thrown from his post of duty into the tank of the engine—not a very pleasing sensation.

Roughly calculating the damage, we should say £3,000 would not cover it, though it may reach double this amount.

Mr. Abbott, the general Manager, is at Azul, but the brunt of the work of management in clearing the line falls on the shoulders of Messrs. McGaw (district locomotive superintendent) and Moore (district traffic inspector). Mr. Barrell, the general head of the traffic department, travelled by the first train from Plaza Constitucion, so as to be on the scene of action.

The line will probably be cleared sufficiently for through traffic, without changing, by to-day or to-morrow.

Mr. Paul Moersig having lost a lot of luggage on several occasions on the Central Argentine and other railways, has petitioned the Minister of the Interior to take steps to stop the robberies going on on all the lines, as the managers pay no attention whatever to his complaints.

Mr. John E. Clark has asked Government permission to devote the receipts of the Andine Railway, of which he and Mr Sanford are the lessees, to the repairs most urgently required on the line.

Government has approved the plans of the line from San Cristobal, from Km. 400 to 673, the terminus of the line.

The line from Chumbicha to Catamarca is nearly finished. The rails are laid to the latter place, and only the stations and some culverts have to be finished. The opening will probably be in about three months.

Our London exchanges yesterday contained such a batch of railway news that we sadly fear our space will not allow of the publication of all the items heaped upon us. Reports on reports fill the columns of our contemporaries, and we extract as follows:

Buenos Ayres and Ensenada Railway: The following motion of the chairman was unanimously carried at the general meeting, 26th April: "That the reports and accounts of the Directors to December 31st, 1888, submitted to this meeting, be and the same are hereby received and adopted; and, that, as recommended by the directors, the following dividends be declared, payable at the London and Westminister Bank, Limited, on and after May 4th, 1889;—On 399,736*l.* fully paid 7 per cent preference stock at the rate of 9*l.* per cent per annum for six months, making, with the interim dividend declared by the directors in October last, a total dividend for the year at the rate of 8*l.* per cent; on 320,000*l.* fully paid ordinary stock at the rate of 8*l.* per cent for the year." (Cheers)

Buenos Ayres Northern Railwry: Extracts from the report read at the general meeting held on 26th April:

"The receipts for the year ended the 31st December last amounted to £145,889 5s. 6d., which, compared with £115,981 1s. 4d. in the previous year, show an increase of £30,108 4s. 2d. The working expenses amounted to £72,151 12s. 1d., being 49.46 per cent of the receipts. In the previous year the cost of working was £59,933 16s. 6d., or 51.76 per cent.

"The depreciation of the currency has continued to cause serious loss to the company, and the net revenue account includes a charge of £23,014 19s. 9d. for the loss on remittances for the year. As the company's working account for the year terminated at the end of 1888, in addition to charging against the receipts all expenses for the year, whether ordinary or extraordinary, the sum of £13,901 15s. 6d. being the whole balance of the suspense account outstanding from the previous years, has been charged.

"The total amount to the credit of the net revenue account, including the balance from the previous year, was £81,675 18s. 2d., and the amount charged against it for debenture and other interest, &c., was £20,221 3s. 3d., leaving a balance of £61,454 11s. 11d., from which has been deducted £38,740 11s. 3d. for loss on remittances, the special charges referred to in the previous paragraph, and ten per cent carried to reserve fund.

"Interim dividends, at the rate of 8 per cent per annum for six months on the preference stock, of 8s. per share on account of the arrears of dividend on the guaranteed preference shares not converted into preference stock, and at the rate of 5 per cent per annum, for six months, on the ordinary stock were declared by the board in October, 1888, and they now propose the payment of further dividends as follows:—

"On 1,395 guaranteed preference shares (being the number still remaining unexchanged for preference stock) at the rate of 1*l.* 2s. per share, making the interim dividend paid as above a total payment for the year of 1*l.* 10s. per share, being the amount of dividend and arrears of dividend to which the holders would have been entitled if the Act of 1885 had not passed.

"On 122,220*l.* preference stock at the rate of 9*l.* 12s. 6d. per cent per annum for the six months, making with the interim dividend a dividend for the year at the rate of 8*l.* 16s. 3*d.* per cent.

"On 127,769 ordinary stock at the rate of 7*l.* per cent for the six months, making, with the interim dividend, a dividend for the year at the rate of 6*l.* per cent.

"On the amount paid on the 5,146 new ordinary shares at the rate of 4*l.* per cent per annum, from the dates of the respective payments to December, 1888, in accordance with the conditions of issue.

"Messrs Antony Gibbs and Sons invite subscriptions to an issue of £600,000 Five per Cent. Debenture Stock, ranking as a first charge on the N.E.A. railway and the guarantee of the Argentine Government, representing a total sum of £300,275 per annum. This guarantee is payable in full by the Government, irrespective of working expenses, so that the investment could scarcely be more perfectly protected. As for the lines of the Company, (1) from Monte Caseros to Corrientes, 369·4 kilometres, and (2) from Monte Caseros to Posadas, about 457·6 kilometres—together 827 kilometres, or say 508 miles, they serve and open up splendid tracts of country and will carry a heavy and profitable traffic. They are being constructed by Messrs. Clark, and the works are making rapid progress. The price of issue is 90."

The B. Ayres and Ensenada Railway, we see by the *Railway Times* of May 4th, experienced that week the extraordinary rise of 4 points.

Mr. Torcuato A Martinez has applied for a concession for a broad-gauge railway from Bahia Blanca to Patagones. The total length of the line would be 280 kilometres.

Mr. Thouar's proposed railway to Bolivia, to which we alluded some time ago, is to have a length of 680 kilometres, starting from Formosa. The cost of the line would amount to 19,043,419 dollars gold, upon which the enterprising explorer asks a guarantee of 5 per cent.

Yesterday the hon. Chamber of Deputies listened to the first reading of an application by Mr Luis Navarro for privilege to build a railway from Biedma on the Rio Negro to Chupat colony. The applicant asks for a 5 per cent guarantee on a kilometric cost of $29,000. This makes the fifth application presented within the last few days for railways in the South. Our prediction will come true: A dozen projects will be filed before the closing of the session.

Messrs Murrieta and Co. have sent out per Garrick and Newton £21,936 worth of railway-material for the Central Northern Extensions.

EDITOR'S TABLE.

Everybody who is anybody wore a done-up look yesterday, tinged with relief that all the high jinks of the past ten days are over, and there is a prospect of settling down to business once more. President Tajes arrived at Montevideo at 11 p. m. on Thursday night. He slept on board and landed early yesterday morning.

There were rumours yesterday of another political shindy in grapy Mendoza being highly probable.

The arrivals of European emigrants in May show a truly tremendous jump over the head of the same merry month last year, for which the figure was 11.859, and this year it is 21,052!! So many more hands at the rudder to pull the ship into the right course. Immigration is only in its infancy.

The Deputies had a short, sweet and uninteresting time of it yesterday, as the sitting only lasted ten minutes. A railway bill was read, see Railway Items, and an application for $15,000 was made for the publication of Onesimo Leguizamon's works.

The invaders were successful on Thursday, and the North American residents in this city, who, we take it, are the backbone, sinews and muscle of the newly instituted Base Ball Club, were defeated by the team of the U.S.S. "Richmond" by 24 notches to 4. Had the game been cricket, we might have ventured on the suggestion that the B. B. C. comprised several players more accustomed to draw stumps than to pitch them.

Lord Mayor Seeber's projects for beautifying the city include a rule that new houses in the wide streets of the city must be built back fifteen yards from the street and have a garden in front. This will look pretty.

A play about Peral and his famous torpedo was produced the other night in the Cibils Theatre at Montevideo and most enthusiastically hissed. What has poor Peral done? Not blown up Gibraltar yet.

Telegrams to the *Patria Italiana* say that the Strasbourg business gave rise to serious anti-Italian demonstrations in the Section of that country at the Paris Exhibition. Queen Margeret's telegram to her Royal husband evidently saved the situation from becoming far more than ticklish.

The popular City Fathers quietly voted one day last week, while all the jollification for General Tajes was going on, some new fad called "la libreta de las familias." So far as we can see, it is one of those useless pieces of city legislation for which our Corporators are famous, but it has not the objectionable features of the famous servant's "libreta" that created such a ruction here last year. It is meant to facilitate the registry of births, deaths and marriages in the city.

A case of that terrible disease "berri-berri", on board a Brazilian vessel in port, was reported yesterday. This is disagreeable, very. "Berr-berri" we believe, is paralysis in its worst form, and few are the patients who recover. There have been of late several cases suspiciously like it in the Mercedes Hospital.

An unfortunate young Chilian as mad as a hatter caused some excitement amongst the fashionable promenaders in Calle Florida the other night by suddenly striking an attitude in the middle of the street and shouting several times at the top of his voice, "As a cure for love, there is nothing like rice-milk!" He was quieted after a time, and led away by a friend. The rice-milk has evidently not proved a perfect cure in his case; but this need not prevent other love-sick swains from trying it.

Advices from Valparaiso say that the Cotopaxi was not lost through striking on a rock, but owing to the plugs of Roman cement put in the holes made by her collision with the Olympia suddenly giving way and letting the water into every part of the ship.

Kean once played Young Norval to Mrs Siddons' Lady Randolph. After the play as Kean used to relate, Mrs Siddons came to him, and patting him on the head, said "You have played very well, sir, very well. It's a pity—but there's too little of you to do anything.

Yesterday was another "very latest paper" day with us, the three legged stamp of Messrs Mackern and Maclean on a huge pile of London papers being the first thing that met our vision on our E.T. As for the Post Office, it yields us such lots of papers from all parts of the globe, on the arrival of each mail—too many of them not worth opening—that we have been forced to order 100 new waste-paper baskets of the largest size.

We received only yesterday morning the announcement of the Trinity Church services at Lomas for Thursday. Had it come in time, we should have published it with much pleasure.

Lord Salisbury's remarks, "in his place" in the House of Lords, about the unstable tenure of power of the rulers of Continental Europe is a "memento mori" for those crowned gentlemen which they can scarcely be expected to relish over much. Such a declaration from the Premier of Great Britain must have created a sensation. A "Home" for emperors and kings out of place or permanently retired from business is pretty certain to be wanted in London about the end of this eventful century. King's Cross(es) would be an appropriate site for it

President Tajes left on Thursday at noon. President Juarez, the Cabinet Ministers and a crowd of notables accompanied H. E. to the South Dock where he went at once on board the Venus. From Plaza Victoria to the Dock was lined as before by the troops of the garrison.

The ball at the Government House on Wednesday night surpassed in "lujo" everything in the Terpsichorean line hitherto attempted in this city. The show of diamonds by the ladies was something surprising. Most of them fairly blazed with precious stones of all kinds on head, neck, arms and waist. Supper was served between 2 and 3 o'clock in the morning. At the break-up there was a most democratic and unfashionable scrimmage in the cloak-room, and the Chinese adage that "the early departing guest gets the best hat" was proved to the letter, many of the greatest swells in the city going home with truly shocking bad hats and worse top-coats. The poor ladies fared no better, and lovely "sorties de bal" went home to wardrobes they had never seen before.

The Rosario *Reporter* says that town lots in Asuncion now command the fabulous price of $500 the square yard!! Are there buyers at the price?

Congress will be asked for a pension for the aged sisters of Sarmiento, who are in great poverty in San Juan. The grand old man would not allow them to appeal to their country while he lived; but they have a double claim in the great services of their great brother and those of their father, who was a gallant officer in the Army of the Andes.

The Bishop of Montevideo, Monsignor Yeregui, arrived on Thursday morning. He came ashore in the Port Prefect's "falua," and at once visited Archbishop Aneiros at the Palace. His Lordship embarked in the evening for Montevideo.

The camp municipalities seem to be all at sixes and sevens. Mayor Torello of Mercedes is the latest who has been deposed by his Town Council. Of course this quite illegal proceeding will be quashed by the courts, as was that of Mayor Sayus at Azul. It seems quite impossible to knock knowledge and notions of legality into Municipal brains anywhere, without resort to strong measures.

Nightly fights in the Olimpo Theatre at La Plata are reported. It appears that a gang of young fellows insist on hissing the actors, be they good or bad; the police interfere, and then the hat and head-smashing begins.

Captain Saenz's balloon has been fished up from the bottom of Chascomus lake, whither he was very near bearing it company on the occasion of his last ascent.

It is rumoured that the Emperor of Brazil is sick of the delay in settling the Misiones question, and is determined to have it arranged for good some way before he starts on another trip for his health either to Europe, the United States, or this country and the West Coast. It is to be hoped that this very agreeable rumour is as true as steel.

There was a fire in Sandwich Hall, corner of Piedad and San Martin on Thursday night. The electric light did it. This will rejoice the flinty hearts of gas shareholders. Up to the present electricity in the shape of light was thought to be incapable of starting a fire. No damage worth speaking of was done.

Linda de Chamounix to night at the Politeama, with Patti in the title role. After the opera the diva will sing that sweetest of all sweet songs, Home, sweet Home!

We have to thank the Red Star agency for a most liberal consignment of English papers, illustrated and otherwise, sent to us yesterday.

All the troops that took part in the review on the 25th will de regaled on Sunday next in the Park there with "carne-con-cuero" and all the other delicacies to which the Argentine Tommy Atkins is partial. It will be rather a big business—3500 men, with their sweethearts and wives. There will probably be rather a big crowd of the population from town to witness this monster military picnic.

The National Government House clerks will have a hard time of this week, to make up for the soft delights of the past one. The G. H. was turned inside out for President Tajes's visit, and not a stroke of work was done in it last week. Now all the arrears have to be pulled up by extra time. Such is life: No rose without thorns. Compensation is Nature's rule.

The first day Artemus Ward entered Toledo, travel-worn and seedy, he said to an editor who was in the street—"Mister, where could I get a square meal for 25 cents?" He was told. "I say, mister," said he, "Where could I get the 25 cents?"

RACING AT PALERMO.

A fair day's sport was witnessed on Thursday by a very large concourse of holiday race goers; interesting principally in consequence of the two races for imported colts and fillies, the importance of the latter, however, being altogether nullified by the miserable semblance of a start which put the chances of all but the 3 placed horses at once out of court; Voltige, however, ran well and will probably prove the best of the batch. Jefferson easily placed the colts' race to the credit of the Talisman stable, and both in breeding and make was entitled to his position. Annamite was extremely unfortunate to lose the Premio Montevideo, as, after disposing of Portenito, his jockey, thinking the race was won, took matters too easily and was unable to pull his horse together again to fight Miss Mary when unexpectedly challenged by the light weight. It is always distressing to see a good horse lose to a lightly handicapped competitor through no fault of his own, and in this case it was doubly annoying for every Briton on the course was on the son of Tomahawk. The sprint race provided a very exciting contest and 30 yards from home it was difficult to say whether El Pasha, Colibri or Signet would prove the winner; the latter, who was on the outside, first attracted the judges' attention, although it was the general opinion that the Casal representative was, if anything, in front; anyhow, it is clear that a stronger jockey could have got a bit more out of El Pasha, who has developed into a fine commanding horse and is sure to prove useful when carefully placed. Monarque won the 3 year old race easily, but considerable credit is due to his jockey who cleverly stole a march on his opponents 800 yards from home, securing several lengths' lead which served him in good stead in the run home.

Governor Hill made a successful debut in the trotting-race and is likely to prove a champion at this illegitimate game.

De 44 Leguas de 1880 hectareas

Ubicadas en las provincias de Santa Fe y Santiago del Estero a corta distancia del ferro-carril de Buenos Aires Rosario y Colonias y su prolongacion a Santiago y Tucuman a 80 kilometros mas o menos de la estacion Arrufo y no muy distante de las estaciones Hercilia y Ceres. centros de colonia agricolas campos de un inmenso porvenir, las regiones del trigo.

Se remataran por orden de la sociedad Colonizadora Argentina, con la infima base de 5 ps. hectarea, Calle Alsina 482.

El Martes, 11 de Junio

A LAS 2 P.M.

Estos espleudidos campos estan situados parte en la provincia de Santa Fe, parte en la de Santiago del Estero distando 35 kilometros mas o meros de los Morteros en la provincia de Cordoba, rodeados por campos del señor Tristan A. Malbran, Colonizadora Argentina y otros.

Estan divididos en lotes de 4 leguas con 7522 hects 9 areas 20 cents y se remataran un lote con opcion a mas o al todo con la infima base de 5 pesos hectarea precio increible si lo comparamos con los campos que se venden por las colonias y que se pagan 80 a 100,000 pesos, campos que hace apenas 8 años no podian venderse arriba de 100,000 ps. legua. Hace apenas 3 meses se han vendido campos inmediatos a los Morteros a razon de 57,000 ps. legua.

Los campos que mencionamos y ofrecemos en venta quedan muy inmediatos al ferro-carril de Buenos Aires y Rosario cuya prolongacion a Santiago y Tucuman pasa ya la estacion Ceres en el kilot. 120 que va a ser la gran estacion de maquinas maestranza y sobre la cual se esta formando un importante centro agricola, la estacion Arrufo 80 kils. dista unos 30 kils mas o menos (6 a 7 leguas) de estos campos y donde pueden dirijirse los interesados que deseen inspeccionarlos y ende en linea recta al Oeste.

La importancia de esta localidad es innegable y a la vista de todo el mundo. La poblacion de Santa Fe va extendiendose con sus colonias hace al Norte y en un par de años terminado que sea este ferro-carril el de los Sres. Portalis y los ramales que se iran construyendo produciran una gran revalucion en los valores de esta region.

Ofrecemos hoy una fortuna a los que tienen fé en el porvenir del pais y no deben perderla pues raras veces se ofrece mejor y mas brillante negocio.

CON POBLACIONES.

Para todos los gustos y todas las fortunas.

¡Atencion!
EN LOS LIAS
30 de Mayo y 2 de Junio
A LAS 12 DEL DIA

Procederemos a vender en remate publico y en los mismos terrenos, el numero de solares, quintas, y chacras que se dejan especificadas, que constituyen el famoso campo que fue de doña Maria Faulkes, hoy del Consejo General de Educacion de la Provincia.—Por orden judicial dictada en el juicio sobre cesacion de condominio seguido por el Consejo General de Educacion de la Provincia.

Este campo que constituye ejido del pueblo de Brandzen, se reputa:—El mejor partido, el mejor del Sud, el mejor de la Provincia.

El que lo conozca, admirará esto sin reserva; y el que no lo conozca, que se informe y confirmará la aseveracion.

Se encuentra cortado por dos vias ferreas, la del Sud y la de La Plata, se halla trazada otra para el Monte; se proyecta un mercado de frutos, un tramway a Chascomus y se establecera alli la estacion principal de la empresa que ha presentado al superior Gobierno el proyecto de una red de ferro-carriles de la Provincia. Hecho esto Brandzen tendra como ningun partido, cuatro vias ferreas y un tramway. Fijarse: Cada comprador sera dueño de dar a su terreno el destino que desee, pues esta operacion no esta sometida a las condiciones con que el Gobierno vende los terrenos de ejido Grandes ventajas—La venta se efectuara: una tercera parte al contado y las dos restantes a plazos de 3, 6, 9 y 12 meses con la guarantia hipotecario del mismo terreno y con el interes de ocho por ciento anual; cuya hipoteca podra chancelarse antes de su vencimiento si los compradores lo pidieren, pudiendo sustituirse por otra de mas largos plazos en los Bancos Hipotecarios de la Provincia o la Nacion.

Observar—Que el pueblo de Brandzen segun el mapa del Estado Mayor del Ejercito Nacional se encuentra situaao a doce leguas y fraccion de kilometros de la Capital Federal, o sea una distancia igual que la ciudad de La Plata. Este campo esta señalado para la agricultura, tambos, pastoreo de invernada y establecimientos industriales. Por lo espuesto puede afirmarse que Brandzen es y sera una situacion industrial y comercialmente Estrategica. Este es un hecho real y evidente que puede palpar todo el que entienda de negocios. Tasaciones baisimas. Los solares se encuentran tasadas á cinco, nueve, quince, veinte y veintecinco centavos el metro cuadrado. Las quintas y medias chacras a 400 y 500 pesos m/n la hectarea. Las chacras a 200, 250, 300 y 400 la hectarea. Y la fraccion de Estancia con edificios a cuatrocientos pesos la hectarea. Las dimensiones de los solares, quintas y chacras constan de los planos que los interesados podran pedir en nuestra casa de remates y en los demas puntos que mas adelante indicaremos,

Para esta grandiosa venta: Tomaremos como base las dos terceras partes de las tasaciones respectivas de donde resulta que se vendera tirado y escepcionalmente barato, siendo la venta forzosa por tener que liquidarse el condominio.

Advertencias —Devidamente autorizados exijiremos al firmarse el boleto el diez por ciento en seña a todos los compradores admitiendo giros contra Bancos. No habra escepciones. Caso de lluvia se transferira el remate para el dia de fiesta siguiente.

Por referencias y planos ocurrase en La Plata, nicasa Avenida 7 entre 49 y 50, Juan A. Carbonell y Cia. B. Aires. estudio del Dr. Luis F. Pintos. Rivadavia 515 pin. Brandzen, oficina del Escribano D. MINISTERIO DEL INTERIOR

Habiendo dejado sin efecto la licitacion a que se llamo por aviso del 9 de Enero pasado para la terminacion de las obras de Riachuelo, por no haberse llenado los requisitos exigidos por la ley, llamase a nuevas propuestas por el termino de 30 dias para la terminacion de dichas obras con sujecion al proyecto definitivo de las mismas que podran consultar los interesados desde la fecha en el Departamento de Obras Publicas, y en la Secretaria de la Comisaria Administradora de dichas obras.

Las bases a que deben sujetarse los proponentes, ademas de las ya establecidas, son las siguientes:

1° En las propuestas debera fijarse un plazo aproximativo para la terminacion de las obras.

2° La expropiacion de los terrenos que fueren necesarios sera por cuenta de los proponentes.

3° Los precios de las obras seran unitarios—El pago se verificara en virtud de certificados mensuales que formulara el contratista de acuerdo con el inspector tecnico nacional de las obras que el gobierno nombre y que dependera del departamento de obras publicas.

4° Los proponentes se obligaran a refaccionar y reconstruir y reforzar los malecones existentes y en los puntos que se requiera mediante el previo convenio con el inspector.

5° El tren de dragado y demas utiles que se hallan a cargo de la comision administradora de las obras del Riachuelo, debera ser recibido por los contratistas y sera tenido en cuenta al formular los precios unitarios.

La entrega del tren del dragado como de cualquier otros utiles que los empresarios reciban, se hara bajo inventario, en el que se establecera el estado en que dichos utiles se encuentren a fin de que sean devueltos al gobierno a la terminacion de los trabajos sin mas deterioro que el correspondiente al uso natural.

Las propuestas deberan presentarse en papel sellado de cinco pesos m|n. y acompañadas con un certificado de deposito en el Banco Nacional por importe del 1 o/o del valor de las obras y á la orden del Ministerio del Interior.

La apertura de las propuestas tendrá lugar en la secretaria del Ministerio del Interior, el dia 9 de Junio del corriente año, á las 3 p m., en presencia del escribano mayor de gobierno y de los interesados que quieran concurrir al acto.—Buenos Aires, Mayo 9 de 1889.— EL SUB SECRETARIO.

Licitacion para la enagenacion de los terrenos del puerto de la Capital,

En cumplimento de la ley num. 2414, llamase á licitacion por el termino de sesenta dias para la enagenacion de los terrenos del puerto de la capital, debiendo las propuestas ajustarse á las siguientes bases:

1—Los terrenos cuya enagenacion ordena la ley num. 2414, son los que resultan ganados al rio por la construccion del puerto de la capital de la Republica, fuera de los casos que se presentarán en las presentes bases.

2—El Gobierno Nacional no aceptará propuesta alguna sobre fracciones parciales de los terrenos, ni por secciones independientes. Las propuestas deben ser generales por toda el area ganada al rio.

3—El licitante-comprador recibira los terrenos en los plazos previstos en los contratos de los señores Eduardo Madero é hijos, para la entrega de las nueve secciones de las obras, en la proporción del terreno ganado y del pago correspondiente á la terminacion de cada una de ellas.

4—El Poder Ejecutivo establecerá la ubicacion y medicion por secciones, epocas de su entrega, extension é importe de los terrenos á entregarse, debiendo quedar definitivamente entregados el 30 de Setiembre de 1892, de conformidad con el art. 16 del contrato de 6 de Octubre de 1886, salvo prorogas que se acuerden al constructor.

5—El licitante que adquiera los terrenos hará por su cuenta el pago de la suma que el Gobierno debe abonar á la empresa constructora del puerto, con sujecion al contrato celebrado por el Poder Ejecutivo con los señores Eduardo Madero é hijos.

6—Ademas de la suma que el licitante debera abonar con arreglo á la base anterior, determinará en su propuesta el precio que ofrezca pagar por cada metro cuadrado de los terrenos que le sean entregados, precisando la epoca, forma y demas condiciones para el pago; el termino para efectuar este no podra exceder del establecido para la terminacion de las obras del puerto y si la empresa constructora no aceptara la sustitucion a los efectos de la base 5., el licitante que adquiera los terrenos abonará en la Tesoreria Nacional el importe de cada seccion, 30 dias antes de la fecha en que el P. E. deba hacer el pago a la empresa constructora.

7—Se fijaran para cada seccion, de acuerdo entre el gobierno y el adjudicatario previa intervencion del departamento de ingenieros y con arreglo a los leyes, decretos y contratos que rigen las obras del puerto, las condiciones y planos en que se construiran las vias publicas, plazas, estaciones de ferro-carriles y demas edificios publicos nacionales ó municipales, asi como las partes del terreno destinadas gratuitamente para el efecto o reservadas para la construccion de los depositos y galpones o para el uso de los trabajos del puerto. Sera adoptado igualmente con intervencion del departamento de ingenieros, un sistema general para la formacion sucesiva de los partes subterraneas o superficiales de las vias publicas, para la coordinacion de las lineas de tranvways, ferro-carriles, teniendo siempre en vista la mayor valorizacion de los terrenos y la mejores facilidades para ser vendidos y edificados. Todo lo que se refiere a construcciones hechos por cuenta del estado, será asi mismo arreglado entre el gobierno y el adjudicatario, con intervencion del departamento de ingenieros.

8—De conformidad con el inciso 4, del articulo 1, de la ley de 27 de Octubre de 1882, reproduciendo en el inciso 2, del articulo 7. del contrato del 22 de Diciembre de 1884 y completado por la informacion de los Ingenieros de la Empresa del Puerto de fecha 14 de Diciembre de 1886 y por los presupuestos aprobados el 30 de Setiembre de 1886 y confirmados en el contrato de 6 de Octubre del mismo año, los terrenos seran entregados desgastados y asegurados contra todo peligros de infiltracion o estacionamiento de las aguas, construyendose para el efecto los canales que sean necesarios por cuenta del contratista del Puerto; debera tener sobre el nivel medio de las aguas la altura media uniforme prevista e indicada en los incisos 7. y 9. del articulo 2. de los considerandos del decreto de 6 de Abril de 1886, con las reservas formuladas en el referido inciso 7. si hubiere lugar; de manera que los terrenos estaran habilitados para recibir desde su entrega todos los trabajos adoptados entre el Gobierno y los ajudicatarios para las vias publicas.

9—Si el ajudicatario comprobase el no cumplimiento de algunas de las clausulas comprendidas en la base 8, el Gobierno, de acuerdo con las leyes, decretos y contratos que rigen la materia, las exigira por los medios a su alcance, en el mas breve plazo a los constructores del puerto.

10—El gobierno y el ajudicatario tomaran medidas de prevision para la conservacion de las secciones de terrenos entregados, en lo que se refiere a las obras en ejecucion y sobre todo a los terrenos situados entre el malecon y los diques. A este efecto, las propuestas para la compra deberan contener una serie de condiciones y presupuestos correlativas a las obras accesorios que se refieran a la entrega de los terrenos, de manera a asegurar no solo su adquisicion sino su conservacion y edificacion. Todo terreno reconocido de comun acuerdo y por el transcurso del tiempo como poco apto a este doble fin y como imposible a garantir absolutamente el peligro de las aguas, quedara fuera del contrato y devuelto al dominio del estado.

11—Las propuestas deberan llenar los requisitos exijidos por las leyes que las motivan y, a general de obras publicas y se presentaran en papel sellado de cinco pesos m|n., acompañadas de un certificado de deposito hecho en el Banco Nacional por la cantidad de (100,000 $ m|n) cien mil pesos moneda nacional, a la orden del Ministerio del Interior.

12—La apertura de las propuestas tendra lugar en la Secretaria del Ministerio del Interior el dia 29 de Mayo proximo, a las 3 p.m. en presencia del official mayor, del escribano general de gobierno, y de los interesados que deseen concurrir al acto.

13—El P. E. se reserva el derecho de aceptar la propuesta mas ventajosa que consulte los intereses publicos, o de desechar todas si las creyere inadmisibles.

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne.s Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great, Britain. His Excellency the Viceroy's Chemists.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

The salient feature of the month's liquidation is undoubtedly the buoyant state of the stock market. Stocks all round have risen during the month, and some so appreciably that it is difficult to account for such rapid and sustained improvement, following so immediately on a protracted and accentuated depression. It has been a proverb, in fact, at the ring that outsiders and the market generally were faring badly. Month after month the bulls had to face a falling market, whilst brokers pocketed their commissions and predicted a stiff further decline. However, when matters were at their worst and appearances looked blackest, the revival came on, and to-day the market is, if not to say booming, at least buoyant to a degree. National Bank Shares, which were down to 242, changed hands to day for cash at 256.50, and at 260 and 259 for end of June. La Plata Moles, which in September last were under par, and were weak even a fortnight ago at 134, were not to be had this morning under 169 for end of June, which is still 5 p.c. lower than the top price of the month. Catalinas show a similar improvement, though not on such an advanced scale, having risen from 148 to 159. La Plata Market scrip, 30 p.c. paid up, offered all round the ring a fortnight ago at 25 and 26, were quoted to-day at 42 for cash. Pobladora Shares have also spurted up from 135 to the neighbourhood of 160, Constructors from 130 to 139, and Flores Constructors from 104 to 118. This is a most flattering prospect for stock-holders in general, and there are no clouds on the speculative horizon to menace the continuance of this happy state of affairs.

The following is a summary of operations effected this afternoon during the first ring: —

The Public Works Department has advised all the tramway companies in the city to send in a plan of their lines, so as to give each and all an entry into the Madero port.

The same Department has called for tenders for canalizing the Riachuelo Jaguaron in San Nicholas, the works to be finished in ten months.

The Board of the La Plata Moles Company has called a meeting of shareholders for 12th June, to lay before them an offer made by a London company to buy up the business on the basis of paying for each share one hundred gold dollars, or £20 sterling, in shares bearing 6 o/o annual interest, £5.10 in ordinary shares of the new company. This explains the standfrom-under boom in this stock, as it means 130 gold dollars per share, or say 200 dollars paper.

The liquidation has passed off tranquilly, much more calmly indeed than many anticipated who feared that the tremendous differences in stocks, and especially in Nat. Bank shares, would bring about a discovery of "lame ducks." At the most, however, only one failure is to be apprehended, and even this is not generally credited, whilst the amount must be insignificant. The liquidator's auction was more a matter of form than anything else, only 700 shares altogether changing hands, as follows :— The liquida'or bought—

200 Catalinas Mole Shares at 159
100 La Plara Mole Shares at 170
2 0 National Bank Shares at 258

and sold 200 Credito Real Shares at 143. This closed the whole business of the month's settlement.

The R.M. s.s. Atrato arrived at St. Vincent yesterday; all well aboard.

The s.s. Columbia arrived in port to-day with cargo of the s.s. Atrato from her previous trip.

The s.s. Zete, Houlder line, arrived at Montevideo to-day from London with 3,000 tons cargo.

The buoyancy of the share market during the past days is mainly attributable to the easy state of the money market, and it was reported to-day that money was on offer against stocks at 8 o/o.

It was difficult to find how the gold premium fared to-day, as different rates were quoted all round. There were many buyers in the morning at 159½, but in the evening there was less demand and we hear of sellers offering at 159. It seems that the stiffness of gold is in great part due to the purchases of the private banks, who are all preparing to take advantage of the Free Banking Act and thus escape the 2 o/o import.

It seems that all our banks will sooner or later have to join in, and two more adherents were reported to-day, being the Carabassa Bank and Banco Ingles de Rio de Janeiro, the latter having applied for an emission of $250,000. As a natural consequence of the gold requirements to meet these demands the gold premium has stiffened, and it is a matter for satisfaction that it has not advanced even further.

The exchange market is fairly active again and rates are firm at 47½ on London and 4.97 francs on Paris.

The produce markets are dull and the slow season seems to have now fairly set in. Prices, however, keep up.

The s.s. Ocampo has received 650 tons of maize in San Pedro for a/c of Bemberg & Co. and will proceed to Zarate to fill up.

The National Bank granted to-day 80,425 dols. gold at from 58.6 to 60.20 premium. The amount of gold sold during May, by order of the Finance Minister, was 1,625,362 dollars.

The Minister of Finance took to-day a million sterling in exchange offered by S. B. Hale and Co. at a gold price of 55 per cent premium, at six months' date; the Government to receive 3 per cent interest for the notes delivered in payment, and to repay the amount when due without paying commission or any charges whatever.

The following is a list of the private banks that have submitted to the Free Banking Law, with amount of notes applied for :—

Italian and River Plate Bank ...	1,000,000

A joint-stock company called "La Chacarera" has been formed with a capital of 250,000 dols., to supply vegetables, fruit, eggs, etc.

Rosario is growing so fast that some enterprising merchants have taken up the idea of creating suburban villages at a slight distance from the city, say 4 to 5 kilometres, which will eventually form part of the great inland metropolis, according as the latter stretches out. Three of the villages have now been formed, and named Nueva Buenos Aires, Florida, and 25 de Mayo Palacios, and others will no doubt soon follow.

The trifling difference between Captain Ferguson, Lamport and Holt's agent, and the Gas Company has been arranged, and the steamers of the former can now effect all their operations at the latter's moles on paying a slight charge per ton.

Cordoba is said to be in the wake of Santa Fé, Entre Rios and Buenos Aires, with regard to "centros agricolas." This scheme is so brilliantly alluring in theory that it must appeal powerfully to all our State legislatures, but its results in practice have yet to be ascertained and considered. Many parties consider this great project as a serious danger to the country, unless consummate prudence and untiring vigilance be employed in its administration, and it may not be wide of the mark to mention that the accentuated depression of Provincial Cedulas is attributed to the "Centro Agricola" law.

We take the following from our London exchanges :—

Under the title of the Argentine Southern Land Company (Limited), a new undertaking is introduced, to purchase about 160,000 acres of land in Chubut and to acquire concessions of 1,986,400 acres, partly in the same territory and partly in Rio Negro, in the Argentine Republic. The capital is £280,000, and applications are now invited for £187,000, in 18,700 shares, of £10 each.

The directors of the City of Buenos Ayres Tramways Company have decided upon an extension of the lines of the undertaking to and upon the streets of the new Port of Buenos Ayres, and a meeting is called for the purpose of authorising the increase of the company's capital.

It is notified that Mr. H. Cosmo Bonsor, M.P., has joined the London board of the Northern Assurance Company.

The news that a Land Company is being formed to open up the Chubut and Rio Negro to colonists is most satisfactory, and the only wonder is that parts so eminently adapted for the British emigrant have up to the present been so totally overlooked. The Land Company could not do better than colonize the lands when they secure them. With the concession of a single of the many lines of railway proposed for the smiling valley it will be surprising if the far South does not soon push its way to the front

With regard to the service of the R.M.S. packets the European Mail contains the following :—"The yellow fever epidemic at Rio, and the quarantine arrangements in force along the South American coast have completely upset the mail service, and our timetable in type is for the present valueless. The Atrato proceeded on April 18 direct for Montevideo and Buenos Ayres, and on the 16th of May another steamer will be similarly dispatched. The Treut carries the Brazilian mails of to-day, and La Plata on May 9 will also proceed only as far as Santos. In addition to the regular mails embarked at Southampton as above indicated, supplementary mails will be forwarded via Lisbon on the following morning in each case, and also on the Saturday morning, on the chance of overtaking the packet at Lisbon."

We would draw the attention of our readers to the auction of 61 squares of land to be held on Sunday next in the immediate vicinity of the Hurlingham Club, and recommend all who are interested in British sports not to miss this, the last, opportunity of securing a site near the club, which is not now a visionary scheme, but a reality, and the district in which it is situated bids fair to become the most important and popular of our suburbs. The works of the Club are now well in hand. The lodge, for which a Nottingham professional has been engaged and is already on his way out, is almost completed. The racquet and fives courts are half finished, the pavilion and stables contracted for and begun. The Hurlingham Hotel Co. proposes to commence at once to build an hotel to accomodate 80 to 100 persons, with large restaurant, reading rooms and every other convenience. Less than three squares from the gate of the Club is the Hurlingham station, which from the plans appears to be a more commodious and elegant building than any other station we have seen. The Hurlingham Building Society now in process of formation propose to build on all the land which they take over, and we are assured that none but first class houses will be built. The land now on sale adjoins that of the building society and is the highest and best in that district, there being in fact no more to be had in the vicinity. The tramway of Lacroze is now putting together the engines which will soon be in actual use, and a branch line from Hurlingham to Moron is under consideration. We may also add that there is a project on foot to canalize the Rio de las Couchas up to Merlo, which when carried out will give value to all these lands. We call our readers' attention to Don Ricardo Eastman's advertisment in another column, and suggest that with tickets free by train and tram, "carne con cuero" gratis, a trip on Sunday through the prettiest country round Buenos Ayres to Hurlingham, which we venture to predict will eventually be the Home of Englishmen here, would amply repay the trouble. Plans of the land are to be had at Mr. Eastman's Office, San Martin 345; and we shall hope to see that the English have all secured lots on the spot so closely identified with their national sport.
